

# Method Full Blown Edition

Install and customize industry-specific apps, or create your own. Includes all the features of Method Remote Entry and Method CRM editions plus the ability to install and customize apps from the Method Application Library, as well as the ability to create your own.

## Features include

- **Bi-directional real-time sync with QuickBooks®** eliminates setup time and ongoing double entry.

- **Access your Method and QuickBooks® data online** from anywhere in the world, anytime of day. It is even optimized for your mobile phone, including Windows Mobile, iPhone and Android.

- **Access virtually all QuickBooks® lists online.** A web based version of this data comes standard in Method, and all changes sync with QuickBooks® in real-time.

- **Full CRM** is included to track and close sales opportunities, turn leads into QuickBooks® customers, assign tasks and follow-ups to staff, track activities with vendors, and more.

- **Import Method-branded industry apps for free**, such as Method Field Services for scheduling and invoicing service routes, and Method Warehouse for managing inventory.

- **Fully customizable** screens, tables, fields, reports and entire Method interface, means you can tailor it into *your own perfect* solution.

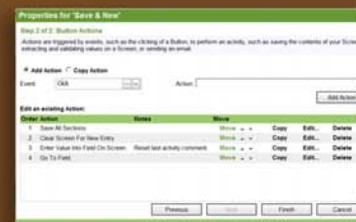

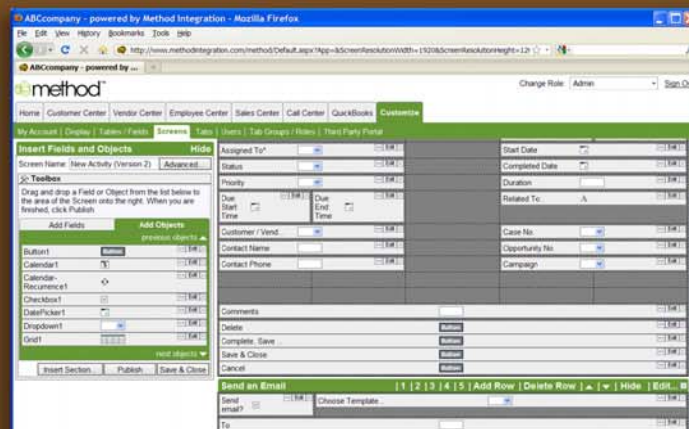

- **Create your own screens, database fields and buttons.** Customize existing screens, or create new screens from scratch, and add your own database fields, such as text, date and dropdown lists. You can even configure buttons on your screens to further improve business processes.

- **Design your own reports, charts and graphs** using the built-in report designer, to identify your company's strengths and weaknesses at a glance.

- **Customer portals** provide a self-service "My Account" area on your website for customers to login to view history, request services and make payments.

- **Customize third party portals** for vendors and partners to independently access information, such as inventory counts, through their own "My Account" on your website.

- **Create your own mobile app** for use on your mobile phone, by customizing and publishing screens in "mobile mode".

# Method CRM Edition

Don't just manage customers - manage your entire business in one place. With Method CRM, you can track and close sales opportunities, turn leads into QuickBooks® customers, assign tasks and follow-ups to staff, track activities with vendors, and much more!

## Features include

- **Bi-directional real-time sync with QuickBooks®** eliminates setup time and ongoing double entry.
- **Access your Method CRM and QuickBooks® data online** from anywhere in the world, anytime of day. It is even optimized for your mobile phone, including Windows Mobile, iPhone and Android.
- **Access virtually all QuickBooks® lists online.** A web based version of this data comes standard in Method, and all changes sync with QuickBooks® in real-time.
- **Track communications with customers,** set reminders and follow ups, and assign tasks to staff to prevent losing customers and sales.
- **Bi-directional sync with Outlook** means your whole company can choose to share emails, contacts and calendar appointments.
- **Store unlimited contacts per customer or vendor,** so you can maintain the contact information of ALL the people you do business with.
- **Keep leads out of QuickBooks®** until you are ready for them to become customers, using the "lead status" feature in Method.
- **Create marketing campaigns** and generate mailing lists to send targeted emails to your leads and customer contacts.
- **Gain insight with dashboard and analytics** to identify your company's strengths and weaknesses, such as staff productivity and job profitability.
- **Track each deal,** its value, close date and probability of closing using opportunities, so that your team focuses on deals that maximize revenue.
- **Upload documents, pictures and other file attachments** and share them across your whole company.
- **Customer portals** provide a self-service "My Account" area on your website for customers to login to view history, request services and make payments.
- **Collect leads** using web forms on your website. A lead, opportunity and a follow-up reminder are created for you in Method, each time a customer requests more information.

Is Lead Status Only  Customer is Active   
 What does 'Lead Status Only' mean?

## Method Remote Entry Edition

Access your QuickBooks® desktop data from a web browser. View, add and edit Customers, Vendors, Employees and transactions on any computer. Yes, even on computers that don't even have QuickBooks® installed!

## Features include

- **Bi-directional real-time sync with QuickBooks®** eliminates setup time and ongoing double entry.
- **Access your Method and QuickBooks® data online** from anywhere in the world, anytime of day. It is even optimized for your mobile phone, including Windows Mobile, iPhone and Android.
- **Access virtually all QuickBooks® lists online**, such as customer and vendor lists, and all changes sync with QuickBooks® in real-time.
- **View, add and edit all transactions online**, including estimates, invoices, time tracking and purchase orders, and all changes sync in real-time.
- **Not everyone needs QuickBooks®**. With front office staff and partners using Method to access QuickBooks® data, your whole company could survive on as little as 1 QuickBooks® installation.
- **Have multiple QuickBooks® files open**. You can easily have multiple accounts open at the same time, since they're simply tabs in your web browser.
- **Customer portals** provide a self-service "My Account" area on your website for customers to login to view and pay QuickBooks® invoices online.
- **Deliver QuickBooks® reports**. Schedule standard reports, such as your "Sales by Rep Summary" report, to be automatically delivered from QuickBooks® to specified staff.
- **Setup roles** to limit which tabs and screens your staff and users see when they sign in, based on their job descriptions.
- **Specify "Wait for sync approval"** to ensure new entries made by your front office staff only synchronize to QuickBooks® upon approval.

2010-Apr-20 16:40 Sales by Rep Summary		
Accrual	All Transactions	
	Apr 20, 10	
Paul Jackson		2054.00
Danny D o Couto		6072.00
Kate Riley		4659.00
<b>TOTAL</b>		<b>12785.00</b>

Wait for Sync Approval?	<input checked="" type="checkbox"/>
Payroll/Item	
Class	<input type="checkbox"/> if this is checked it won't be sent to QuickBooks until it is approved.
